**EXAMINER'S AMENDMENT** ✓

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Non-elected claims (withdrawn) 17-24 have been canceled.

2. Claims 1-5, 7 and 8 are allowed.

3. The following is an examiner's statement of reasons for allowance: ✓

The primary reason for the allowance of claims 1-5, 7 and 8 is the inclusion of the limitation of each of the liquid passages is formed by a hole extending from the respective chamber, through the drive circuitry and into the monolithic wafer, and a supply passage extending from the liquid supply side partially through the monolithic wafer such that a fluid connection is established with the hole, the supply passage and the chamber being wider than the hole. It is this limitation found in each of the claims as they are claimed in the combination, which has not been found, taught or suggested by the prior art of record that makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
